- Japanese(Basic)

PROFILE

I am a third-year Software Engineering student with experience in collaborative project development. I am well-known for my ability to communicate effectively and work well in groups. I'm looking to employ my technological knowledge in a growing company where I can learn and contribute significantly.

PROJECTS

MJIIT Academic Counter System
- Developed a desktop queue management system using JavaFX and MySQL based on the MVC architecture to improve academic office efficiency.

Focus Flow – Study Productivity App
- Created Focus Flow, a study app using Flutter and Firebase that includes a Pomodoro timer, To-Do list, and deadline tracker for student productivity.

Learn Loop – Web-Based Pomodoro Study Platform
- Built Learn Loop, a web-based Pomodoro app using HTML, CSS, JavaScript, and Firebase to help users manage time and tasks effectively.

WORK EXPERIENCE

IINTERNSHIP (OCT 2022 - MAR 2023)
PEJABAT PENDIDIKAN DAERAH KUALA MUDA YAN
